RED = coil stock
No offcut allowance required

BLACK = bar stock
Usually 11.7m lengths, please
confirm when quoting

Multiply your metres x KG/M to work out kg's required....

Eg - 6m of 8mm = 6 x 0.425 = 2.55kg (we round kgs up) = 3kg

Multiply by your KG rate quoted x kgs for price.....

Eg \$12kg x 3kg's = \$36 plus GST and freight
